## THE CONTEST FILED

At Last the Northern Pacific Has Shed Its Coat.

AND WILL FIGHT THE CASE

Objects to the Decisions of the Mineral Land Commissioners—Opinions of an Attorney and Mr. Leonard.

Missoula, July 13.—The Northern Pacific railway has filed in the Missoula land office contest against the decisions of the mineral land commissioners of this district, which declare the land within the grant to be mineral. The contest is made on the ground that the land is not valuable for mineral purposes and covers about 600 acres in various locations, nearly all near the railway or this city. This contest was expected, as the railway company could not allow this opportunity to escape to test the extent of the power of the mineral land commission. If the company had allowed this first report of the commissioners to go unchallenged it would have been impossible to have contested it, it is said, the decisions, which involve land of great value.

This contest will, it is believed, decide whether or not the mineral land commissioners can save to the people of this state the lands which belong to them. "It will settle the whole business," said an attorney to a Standard reporter to-day, "and if the mineral land commission is not sustained by the courts, I believe we might as well give up all hope of saving our mineral lands. This contest is one of the most important issues ever raised in this state." Commissioner F. M. Leonard rode in this evening from the camp of the commission on Clearwater and was interviewed by a Standard reporter, to whom he said: "The basis upon which we have been working is that agreed upon at a joint session of the commissioners and state board, which is: Any ground shall be classed as mineral which would justify any reasonably prudent man in sinking upon and developing it. I do not see how any other construction can be placed upon the law. The commissioners cannot tell whether or not the land is mineral which contains mineral croppings would be valuable as a mine simply by examining it. The only way that it can be determined is by development. But we contend that where mineral indications are unmistakable the land is mineral and we have proceeded upon this basis. Every division of land which we have classed as mineral contains mineral indications which are unmistakable."

What will be the course of the railroad company is not known, but it is believed that an effort will be made to place a more limited construction upon the law, which will upset all possibility of any classification. The outcome of this contest is of utmost importance to the people of the United States and will be watched with deep interest.

## BRIEFS AND PERSONALS.

Missoula, July 13.—Under Sheriff Curran returned from Thompson's jail this morning with two men who were supposed to be the Superior robbers who burglarized Johnston's store a week ago. To-night a man and woman, who knew the robbers came up from Superior to identify the men and said at once they were not the guilty parties. The men were released this evening.

The sheriff to-day sold, under a foreclosure, all the mining property of the Lo Lo Chickamaik Mining company. The purchaser was William Davis, who paid \$340.21.

Frank P. West and family left this evening for a three months' outing in the Bitter Root valley. Woodside will be their headquarters.

Indications are that to-morrow there will be only three men left in town—H. Kohn, J. M. Hartley and a Standard reporter. Everybody else is going fishing. To-night not a lively rig or private conveyance can be obtained. George Simpkins and one companion to-day established the fishing record, bringing home 371 trout from Upper Lou Lou creek.

John M. Price returned to Hope to-day, after spending several days in Missoula.

The train service on the Northern Pacific is still demoralized. Trains from the west are still running over the O. R. & N. line and will until the tunnel can be repaired. Trains from the East have been behind time for a week, owing to the inability to make time on the Montana division. No. 2 went East to-night about nine hours late.

J. W. Nelson and Dr. Essig came over from Deer Lodge to-day and went up to Hamilton this evening.

C. E. Rogers of Hamilton is in the city this evening.

Chief Engineer Ensign of the B. & P. surveyors, came down the valley to-day and left for Anaconda to-night. Two surveying parties are now at work in the Burnt Fork district.

Mrs. F. E. Sargeant of Anaconda, came in from the Copper City to-day and went to Hamilton this evening.

A suit for divorce was filed to-day in the district court by Mrs. Rachel Myers, against Howard W. Myers. The affair is most unfortunate, and grows out of a misunderstanding. Mr. Myers will file an answer in which a denial will be made of all allegations which are set up.

Judge Evans, Mrs. J. W. Lister and their mother, Mrs. Evans, were called to Deer Lodge to-night by a telegram announcing the dangerous illness of Mrs. Nat Evans.

was lost, however, was not the Portland which was formerly named the Haytian Republic and was made famous by her connection with the Haytian revolution and the Portland smuggling ring. The lost steamer is owned by the Lang Fish company, of this city.

## BILLINGS BLAZE.

Fire in a Warehouse Comes Near Being Disaster.

Special Dispatch to the Standard. Billings, Mont., July 13.—Fire broke out this evening at 8:30 o'clock in the warehouse of the A. L. Babcock Hardware company, situated on the Northern Pacific track. The fire is supposed to have originated from sparks from a passing engine and had attained considerable headway before it was discovered. The building, being of wood with iron sheeting, made it difficult for the fire department to fight the fire, which seemed to cover all the interior, but by chopping holes in the side of the building the firemen managed to pour several streams into it, and after about half an hour had the fire under control. The building and stock are both badly damaged. The extent of the loss cannot be safely estimated at present, but it is probably covered by the insurance, \$9,500. The stock was insured in the following companies: Orient, \$2,000; St. Paul Fire and Marine, \$1,000, and for \$2,000 each in the Northern Assurance, Royal and Sun of San Francisco. The building was insured for \$1,000 in the London & Lancashire and \$500 in the American of New York.

## REGARDING TESTIMONY.

German Government Objects to Certain Rules That Have Been in Force.

Washington, July 13.—Ambassador Runyon has notified the state department that the German government objects to taking testimony of German subjects in Germany by commissions issued by the courts of the United States, federal or state, and hereafter the only method in which testimony can be taken in that country for use before our courts will be by means of letters rogatory addressed to some German judge, who will take the testimony. The restriction does not, it is understood, apply to United States consuls who administer oaths in their official capacity, such as are necessary to the filing of applications by Germans for American patent, or to the certification of the quality of goods exported to the United States.

## Palma's Headquarters.

New York, July 13.—Thomas Estrada Palma, leader of the Cuban revolutionists in the United States and other foreign countries, is here arranging for opening headquarters in this city. His first act was to appoint Gonzales de Quesada secretary, which office he held under Jose Marti.

## The Metric System.

Washington, July 13.—Word has been received here that the select committee of the British house of commons on weights and measures has reported a recommendation that the metric system be made permissive at once in Great Britain and compulsory after two years.

## Information Wanted.

Washington, July 13.—The secretary of the interior has called upon the war department for information whether there are any improvements on the military reservation at the Narrows of Puget sound, Washington, that ought to be appraised and sold. The reservation was transferred to the interior department by the president last October.

## Didn't Forget Their Duty.

Salt Lake, Utah, July 13.—The third annual meeting of the Territorial Democratic societies was held here to-day. Many women took part in the proceedings as delegates. The declaration of principles, which was adopted, affirmed undying allegiance to the democratic party and declared for the free and unlimited coinage of gold and silver at a ratio of 1 to 16.

## For a Newspaper Federation.

Salt Lake, Utah, July 13.—At a meeting of the Utah Press association here to-day it was decided to issue invitations to all publishers west of the Missouri river to meet here in convention in August for the purpose of forming a western newspaper federation for mutual benefit.

## A Feeling of the Sorrow.

From the Cincinnati Tribune.

A rather pathetic cat story comes from one of the down river suburbs. Little Pearl Keich, the daughter of Enos Keich, has a large pet cat which has slept for many months in a basket by her. A week ago the child was taken by her mother to Nebraska. They left in the morning before the cat was up, and Pearl's little nightgown was left in a white heap on the floor. When the cat missed the child it went to the little gown and laid itself down there and has refused to leave it, save at short intervals, ever since. The other members of the family have not had the heart to take the garment away from the disconsolate pet.

## When He Gets Used to It.

From the Washington Star.

"There's one curious thing about a congressman," said the old-timer. "What is that?" "When he's first elected he'll hang around the town for months waiting for the janitor to open the house of representatives. After he's half through a session you have to put a rope round his neck and drag him in to get a quorum."

## FREE RIDE AND BEER

Rival Stage Lines Cutting Rates to an Amusing Extent.

## YOUNG CORNET PLAYERS

Runaway and Sprained Ankles—New Building at the Mammoth Hot Springs—New Store—Short Personals.

Livingston, July 12.—A lively rate war is now on between the rival Cokedale stage lines running to and from this city. To-day Fred Follett, proprietor of the old line, announced a free passage rate, and from now on until further notice will not only carry passengers for nothing, but will throw in a big glass of beer to boot. This is an actual fact. He has made arrangements with a Cokedale saloon to furnish free beer to every passenger who rides in his stage to that camp. The rate cutting was started by Wesley Kernutt, proprietor of the new line, who reduced the price of one-way tickets from \$1 to 25 cents. But now that the old line has made a free rate, with a schooner of beer thrown in, Mr. Kernutt will probably go the rival line one better and furnish his passengers with free transportation, free beer and a free lunch.

Thursday afternoon as Orion Holiday, of the firm of Holiday Bros. of this city, was returning to town from a trip to the Holiday ranch on the upper Yellowstone, his team, attached to a lumber wagon, took fright and ran away. As the runaways dashed on through the canyon, five miles south of the city, Mr. Holiday was thrown from the wagon but luckily escaped with a sprained ankle and a few bruises. The horses ran wildly on and never stopped until they reached the city. The wagon was entirely demolished and the horses were badly cut about the legs.

Herbert A. Van Horn, the talented cornetist, is organizing a juvenile class in this city for instruction on the cornet. He already has half a dozen pupils and if he meets with proper encouragement, proposes to spend one year in laying the foundation for the organization of a band that will be a credit to the city. As soon as sufficient progress is made by the pupils they will supply themselves with instruments. Mr. Van Horn is a musician of acknowledged ability and thoroughly competent to take charge of the work which he has undertaken. If parents will interest themselves in the matter there is every reason to believe that the Livingston Juvenile Cornet band will soon become one of the finest musical organizations in this part of the state.

Postmaster George J. Ash of Mammoth Hot Springs, in the National park, has let a contract to A. P. Ross of this city for the erection of the springs of a two-story frame business block and residence combined. The contract price is \$4,000. Work on the structure will begin in a few days. Brakeman J. P. Ross, who was injured while switching in the Cokedale yards Wednesday, left for Missoula the following day to enter the Northern Pacific hospital. He was accompanied to the Garden city by Brakeman Joe Thompson.

The "Bee Hive" is the name of a new craft launched on the mercantile sea by J. Y. Naper of Iowa. The gentleman has opened up in the Opera House block, with a large stock of notions, crockery, etc., and has secured the services of Miss Austa Bowers as saleslady.

The McCauley Mining company of Crevasse has bonded the Emma and Sunday quartz lode claims in the Crevasse district from Mesera, McClees and Deaver for \$9,000. The bond runs for six months. County Clerk Angus has issued 200 bounty certificates since the passage of the new bounty law. This represents \$600.

C. P. Lewis, the tailor, has removed from Calendar street to the clothing store of Henry Frank on Main street.

E. B. Whittier of this city and Frank Carey of Duluth departed Wednesday with a camp outfit and seven pack animals for their mines in Sunlight Basin, Wyo. They expect to be gone three months.

## SILVER BOW VALUES.

Carlos Warfield Has Completed His Assessment Roll.

Butte, July 13.—County Assessor Warfield has just completed his assessment roll for this year, and it shows that Silver Bow county is the only county of the first class in the state. Under the new law only counties that have an assessed valuation of \$20,000,000 can be classed as counties of the first grade. Lewis and Clarke county has fallen far below that figure, while the assessment of Silver Bow county has been increased nearly \$2,500,000 over last year, the total assessed valuation this year being about \$22,802,880. The increase is not due to any increase in valuation but to a closer assessment than in former years, and there are very few persons that escaped taxation by Mr. Warfield, and consequently the list of taxable property has been greatly increased. The railroad assessments will be made by the state board of equalization and will probably figure up about \$400,000 in the county. The following recapitulation gives the amount of the different taxable properties and their assessed valuations:

Number of acres, 41,187.  
Cash value of real estate other than city or town lots, \$29,525.  
Cash value of improvements on such real estate, \$1,098,583.  
Number of town lots, 19,502.  
Cash value of such lots, \$6,103,310.  
Cash value of improvements on city and town lots, \$4,017,985.  
Cash value of improvements on real estate assessed to persons other than owners of such real estate, \$375,475.  
Full cash value of all real property and improvements, \$11,530,515.  
Mortgages, county, city, municipal and other taxable bonds, \$1,068,720.  
Number of watches, jewelry, furniture and firearms, 191.  
Value of watches, etc., \$154,250.  
Number musical instruments, sewing machines and libraries, 462.  
Value of musical instruments, etc., \$62,515.  
Value of goods, wares, merchandise and consigned goods, \$1,103,320.  
Value of fixtures of saloons, stores, farming utensils and machinery, \$648,745.  
Number wagons, vehicles, harness, etc., 1,333; value of same, \$67,550.  
Number of horses, stallions and mules, 2,450; value of same, \$68,940.  
Number of cows and stock cattle, 3,839; value of same, \$82,250.  
Number of sheep and goats, 2,700; value of same, \$4,350.  
Number of hogs, 275; value of same, \$1,460.  
Value of grain, hay, coal, liquors, lumber and wood, \$30,375.

Value of all other property, \$1,329,085.  
Cash value of all personal property exclusive of automobiles, \$4,863,475.  
Amount of money, \$1,644,500.  
Total assessed values of all real property, including improvements, \$11,530,515.  
Total assessed value of all property in city of Butte, \$14,530,471.  
Total assessed value of all property in the city of Walkerville, \$93,705.  
Total assessed value of all property, \$11,624,176.  
Net proceeds of mines, \$4,583,900.  
The net proceeds of the mines and about \$100,000 of railroad assessments yet to be made must be added to the "total assessed value of all property" as given in the above in order to get the total amount of \$22,802,880 upon which taxes will be paid.  
In nearly every case on the assessment roll there is an increase over former years. An example of it is in the number of cows and stock cattle, of which there is listed about 2,500 more than there were last year. Though there is an increase in valuation, there is an important increase in assessments.

## Poor Little Fishes.

Butte, July 13.—There will be a great exodus of anglers from Butte in the morning. The Northern Pacific fish train will leave for Sacre's ranch and Pipestone at 9 a. m., getting back at about 9 o'clock in the evening. There is plenty of fishing on the Gallatin and a good many anglers will try their luck there to-morrow.

The Great Northern runs no fish train, but the regular train leaves for Basin, Elk Park, Bernice and Boulder at 3 a. m. and one can get back at 3:30 or 11 o'clock, as desired. There will be many fish brought back over that section to-morrow.

## Lee Yon and His Certificate.

Butte, July 13.—Lee Yon, the Chinaman, who could not produce his certificate, was arraigned before United States Commissioner McMurry again this afternoon and was released on paying costs of \$37. He had obtained a copy of his original certificate, which had been taken out in Portland. The trial of George Harbour, on a charge of trying to pass counterfeit money, was postponed until Monday.

## Rare Painting.

Butte, July 13.—S. Y. Brobst, the well known artist of this city, has just completed a fine oil painting which is arousing much attention. It gives excellent views of Sutter's mill, Butte and Leadville, and in depicting various kinds of ores from various mines Mr. Brobst has shown a rare gift. The painting can be seen in Gallogly's window.

## Fifty More for Salt Air.

Butte, July 13.—There was another big train of excursionists to Salt Lake this afternoon. About 50 took advantage of the low rate and got out of town.

A good, healthy wholesomeness will make even a homely face attractive. There are many reasons why women should take care to be healthy. One very strong reason is that beauty and illness are very seldom found together. Illness—and especially the kind peculiar to women—makes the complexion bad, the eyes dull and sunken, the manner listless and the intellect dull.

No woman in this condition can be attractive to her friends. Personal appearance counts for much, but comfort amounts to even more. What's the good of living if one cannot enjoy anything? If headaches and backaches and dragging weariness and pain accompany even slight fatigue?

If the system is constantly subjected to a debilitating drain, where is the energy to come from to make enjoyment possible? Personal comfort and a consideration for the feelings of others are two of the incentives to an effort to secure health.

If the illness is in any way connected with the purely feminine organism (and the chances are ten to one that it is) Dr. Pierce's Favorite Prescription will cure it.

Dr. Pierce has used the "Prescription" in his practice for thirty years with unbroken success. A large book written by him entitled "Woman and Her Diseases" will be sent (securely sealed, in plain envelope) to those who will send this notice and ten cents to pay postage, to WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.
